Project

Break

Agenda :-

- 1) Types of LHD interview
- 2) How to approach
- 3) Design a Pen.

## Types of LLD Interview

<u>Theoretical</u>	<u>Design</u>	<u>Machine Coding</u>
<ul style="list-style-type: none"> <li>→ old MNC's, Banks.</li> <li>→ Test knowledge</li> <li>→ OOPS / design pattern</li> <li>→ 30-45 mins</li> <li>→ no code, at max <u>example code</u>.</li> </ul>	<ul style="list-style-type: none"> <li>→ Problem Solving</li> <li>→ case study amazon, walmart, Paypal.</li> <li>→ 30-45 mins.</li> <li>→ <u>code the classes</u>.</li> </ul>	<ul style="list-style-type: none"> <li>→ startups</li> <li>flipkart / myntra / Cred / Zepto / Zomato.</li> <li>→ Design + code</li> <li>→ write end to end <u>feature</u>.</li> <li>2-5 <u>hrs</u>.</li> </ul>

## Design

- single line problem statement,
- Gather Requirements
- class diagram
- Schema diagram
- Code for the classes
- follow up.

## Machine Coding

- Detail document of the requirements,
- clarify the reqn.
- class diagram
- Schema diagram
- complete end to end feature.
- ⇒ follow up.

## At scale

- ① 1 line PD.
- ② Gathering req.
- ③ clarification
- ④ class Diagram
- ⑤ schema diagram.
- ⑥ coding functionalities.

## Design a Pen

Step 0:- Get an Overview.

↓  
align your thoughts  
with interviewer on  
Problem Statement.

what do you want me to design?

→ entity

→ real & no system.

Do I need to persist data

yes → db  
no → in memory.

How do I interact with the client?

→ Hand Code

→ Command line,

→ Rest API } → Project module

Step 1 :- Gathering & clarity begin

Note down

→ Suggest / features & ask  
if they want these to  
be supported.

→ 5-8 features.

↓  
visualize.

Any physical entity that can write behaviour is a pen.

Supporting gel pen, ball pen, fountain pen.

Gel and ball pen will have a refill, others will not have a refill, and refill will have ink.

Different inks have different colours.

For every pen, need to store the brand, name and price.

Pen can be either closed via cap or via click buttons.

Often refills have different nibs radius,  we have to store the radius of nibs 

The fountain pen itself has nibs.

→ Design diff. classes

Break

10:06pm - 10:15pm

## class diagram

- ① visualise the requirement / entity.

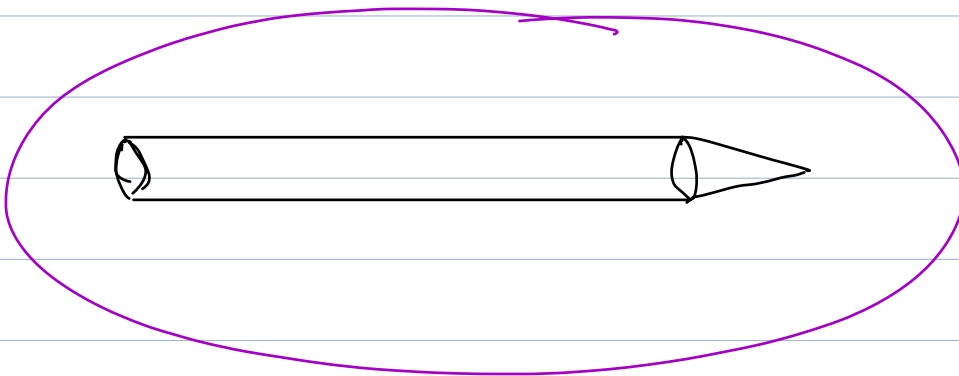

- ② By identifying the needs.
